**Description:**

While Ridley Pearson's seems to have run out of steam lately, his new stand-alone thriller shows this perennial best-selling author at the top of his form. It begins with a taut prologue introducing federal marshal Roland Larson and his protected witness, Hope Stevens, whose testimony will send the Romero crime family to jail if she ever makes it to court. When Hope walks away from the witness protection program, she takes Larson's heart with her; he hesitates just long enough to regret it; and spends the next six years searching for her. Then she surfaces again in connection with the disappearance of another protected witness, a computer expert who holds the safety of everyone in the program in the top secret software program he developed. Noone wants access to that program more than the Romero family, and Hope Stevens is the first and most important target of their wrath. As a member of the elite Fugitive Apprehension Task Force, Larson races the clock to

find the man whose knowledge threatens the life of the woman he still loves—and the child he never knew he had. A heart-pounding thriller that's impossible to put down, this is Pearson's best to date. --*Jane Adams* --This text refers to the edition.

**From Publishers Weekly** Crime fiction king Pearson's (*The Body of David Hayes*) latest fast-paced thriller finds a smitten U.S. marshal and a vengeful killer chasing after the same elusive woman in witness protection. Hope Stevens, a technical consultant for the Justice Department, helped indict the deadly Romero white-collar crime family in a million-dollar fraud investigation. For six years, she's been in the witness protection program, waiting to testify. Now, the Romeros have infiltrated the program's participant list, and she's in grave danger. Roland Larson, a U.S. marshal in St. Louis who met Hope just before she was admitted to the program, still pines for her and is determined to find her. But close behind him is Paolo, a throat-slasher commissioned by Romero and a scarification fetishist, whittling his way through Hope's acquaintances to get to her. Accidental exposures keep Hope on the run as the vigilant Paolo and heart-heavy Roland grow increasingly desperate. Hope and Roland's heated reunion is marred by the kidnapping of Hope's previously well-concealed five-year-old daughter, Penny, a surprise to everyone, especially "new" father Roland. Separately, gutsy mother and daughter try to outsmart Paolo, then chase electronic messages to Florida and onward to the finale in Washington and Seattle, where protection program names are being auctioned off to mob goons. As seasoned heroes and a league of gangland villains lock horns for the busy wrapup, even fans accustomed to Pearson's heart-pounding pacing will find themselves short of breath. *Agent, Al Zuckerman. 10-city author tour.
